Front Desk Touch Panel System
フロント用タッチパネルシステム

Guests can view hotel information and input preferred meal or massage times using a tablet installed at the front desk.

フロントに設置されたタブレット端末で、ホテルの紹介映像を見たり、食事・マッサージの希望時間を入力できます。

Hardware:
Standing Guide Kiosks/Tablet Devices
Software:
C# (WinForm / WPF)
MySQL database
Optimized for Windows platform deployment

Amenity Inventory Management System
アメニティ在庫管理システム

Using a barcode scanner and computer system, this setup records the stock in/out of items such as shampoo or drinks. Low stock levels trigger alerts via mobile app.

シャンプーやリネンなどの出入庫をバーコードスキャナーとPCで記録し、在庫が不足するとモバイルアプリでアラートが送られます。

Hardware:
Standing Guide Kiosks/Tablet Devices
Software:
C# (WinForm / WPF)
MySQL database
Optimized for Windows platform deployment

Restaurant Inventory Management System
レストラン用在庫管理システム

This system tracks stock movements of alcoholic drinks and beverages in the restaurant. Mobile notifications are sent when stock is low.

レストラン内の酒類・飲料などの在庫出入を管理し、在庫不足時にはスマートフォンに通知が届きます。

Hardware:
Barcode Scanner/Computers
Software:
C# (WinForm / WPF)
MySQL database
Optimized for Windows platform deployment

Restaurant Kitchen Coordination System
レストラン厨房連携システム

Real-time dining status is shown on kitchen displays linked to restaurant touch panels.

レストランのタッチパネルと厨房のディスプレイが連携し、客の食事状況をリアルタイムに表示します。

Hardware:
Tablet Devices/Computers/Large Display Screen
Software:
C# (WinForm / WPF)
MySQL database
Optimized for Windows platform deployment

In-Room Service System
客室サービス用システム

Guests can order food or request services from their room tablet. Requests are sent directly to staff smartphones.

客室内のタブレットから料理注文や各種サービス依頼が可能で、内容はスタッフのスマートフォンへ直接送信されます。

Hardware:
Tablet Devices/Computers
Software:
C# (WinForm / WPF)
MySQL database
Optimized for Windows platform deployment

Device Selection

1. Standing Guide Kiosks

These vertical touch-screen kiosks are ideal for hotel lobbies or restaurant entrances, supporting self-service navigation, guest check-in, and service reservations.

•Shangge Smart Technology – Offers customizable kiosk designs with multi-touch displays.

•Dingyi Hongji LPHA230 – Embedded-style kiosk suitable for counters and furniture integration.

•Enteng Interactive Terminal – Designed for floor directories and large-scale venue guidance.

2. Tablet Devices

These tablets are used in guest rooms, front desks, or restaurants for service requests, multimedia displays, and staff communication.

•HUAWEI MatePad Series – High-performance tablets with strong app support and sleek design.

•HONOR Tablet Series – Budget-friendly options suitable for mass deployment.

•Xiaomi Pad Series – Multiple sizes and configurations to meet different business needs.

3. Desktop Computers

Used for inventory control, kitchen displays, and administrative tasks. These models are optimized for stable performance and domestic OS compatibility.

•Lenovo Kaitian M90h G1t-D004 – Supports Kylin OS, ideal for secure, domestic environments.

•Inspur Loongson 3A4000 – Equipped with Loongson processors and trusted Chinese OS.

•Tsinghua Tongfang Chaorui L860-T2 – Uses the Loongson 3A5000 processor, popular in government and enterprise deployments.
